

2363. Merge similar items!

item1: $[[1, 1], [4, 5], [3, 6]]$

item2: $[[3, 1], [1, 5]]$

★ Weirdest case is if the
second iteration array is larger
and has unique set

★ Hashmap implementation
using notion of sets and the
use of `.get()` to
retrieve or create hash for
values if they are not already
created.
